

## ASSEMBLY MADE A MARK TODAY

Debated For Two Hours With Bitterness About  
Getting Up Early In The Morning.

## MAY BE THROUGH BY JULY FOURTH

Matters Which Will Keep Them Busy Until Late Into The  
Summer Now Appear Ready For  
Consideration.

[SPECIAL TO THE GAZETTE.]  
Madison, Wis., March 1.—While the senate was grinding out business today the assembly frittered two hours away in debating a question as to whether or not to meet a half-hour earlier in the morning. The debate was mean at times and resulted in the non-concurrence in the senate proposal to meet at 9:30. The prospects are more than ever for an unprecedented long session and some wagers are laid that adjournment will not come before the fourth of July.

The senate advanced a bill by Senator Morris to advance the price of state lands when they shall be enhanced in value. A favorable report came from the assembly committee on a resolution to investigate the state printing, this being a step in the program to establish a state printer, as favored by the social democrats.

The legislators who investigated the life insurance and state university last year are subjects of the appropriation bill carrying \$10,200 favorably reported today by the committee on claims.

In the near future a contest will be held before the senate on the Owen bill, the purpose of which is to relieve the secretary of state from the necessity of appointing practically all of his subordinates by the civil service merit system. The bill as introduced provided that the non-competitive class of state employees should be enlarged so as to include not only the deputy and stenographer of each department, but also the chief clerk, one confidential clerk and all subordinates for the faithful performance of whose duties the head of the department is required to give bond.

The committee on elections, by Chairman Martin, reported the bill yesterday in favor of passage, with an amendment providing that the extension of exemption shall go to the board, and the chief clerk and one additional confidential clerk in the department of the secretary of state. It is assured that even in the amended form the bill will meet with strenuous opposition, and some wagers have been made as to whether or not it will become a law.

The committee on military affairs, by request of Senator Smith, introduced a bill to appropriate \$1,000 for the purpose of sending one Wisconsin company of militia to the Jamestown exposition for the purpose of representing the state at the military display. The company is not designated.

## FOUR BOYS ESCAPED, BUT ARE ALL CAUGHT

Inmates of the Home for Feeble Minded Try to Take French Leave During Night.

[SPECIAL TO THE GAZETTE.]  
Chippewa Falls, Wis., March 1.—Four boys of the feeble minded home escaped during the night. They hid their clothes under a bed and fled through a window. They were caught fifteen miles away this morning, near Cadott.

## LITTLE BOY KILLED BY A FALLING TREE

Tree Fell Wrong Way and Killed Him as He Was Playing Near His Father.

[SPECIAL TO THE GAZETTE.]  
Kadlec, Wis., March 1.—Joseph, aged seven years, was killed by a tree his father, John Stoffel, felled this morning. A sudden breeze caused the tree to fall the wrong way on the playing boy.

## JANESVILLE MAN HAS SECURED A PATENT

E. W. Heylman Has Invented a New Machine and Been Awarded a Patent.

Benedict Morsell & Caldwell, solicitors of patents, Free Press Bldg., Milwaukee, report patents issued to Wisconsin inventors, Feb. 26, as follows: W. K. Andrew, Milwaukee, gas engine; J. Bernink, Milwaukee, air blast drier; W. Eibel, Rhineland, fourdrinier machine; J. E. Gallinger, Superior, door check and holder; W. W. Gore, Beloit, centrifugal ear-extractor; M. L. Henlein, Two Rivers, ironing board; E. W. Heylman, Janesville, cultivator; C. R. Miller, Milwaukee, dough divider; H. W. Pickard, Oshkosh, milk bottle skimmer; G. H. Robbins, Racine, cabbage harvester; C. A. Shaler, Waupun, vulcanizer; A. M. Smith, Whitewater, horse power and hoist; T. J. Sullivan and G. H. Harris, Milwaukee, pneumatic ren-

nated, but it is understood that it will be the Fond du Lac company, the "crack" of the state, if the bill is enacted. The bill will also meet opposition, particularly from the social democrats and some others who are opposed to contributing to anything that suggests warfare.

Governor Davidson transmitted to the senate a communication from an oil convention in Topeka, Kansas, this year, reciting the fight of that state against the Standard Oil company and the good effects of the two new laws enacted, multiplying independent oil companies and decreasing the cost to the consumers of that state by \$500,000 a year, and calling upon the other states to enact similar laws.

Another executive communication transmitted an invitation to Wisconsin to make an exhibit to be held at Sacramento, Cal., next September in connection with the national irrigation congress.

The committee on agriculture reported favorably the bill to prohibit the state veterinarian from using his official position to advance his own private business ventures. Senator Wolf dissented. This bill is proposed to be enacted so as to set at rest the charges that Dr. David Roberts, present state veterinarian, is or has been improperly taking advantage of his official position to aid in dispensing remedies and other things in which he is interested. It is expected that if this bill passes the opposition to the confirmation of the executive appointment of Dr. Roberts will cease.

The committee on state affairs reported favorably a bill to appropriate \$3,000 for the purpose of building a barn and installing a new heating plant at the executive residence.

The committees of the legislature are getting down to work in such manner as to give promise that predictions of early adjournment may be verified notwithstanding the fact that thus far, under the new rules, the legislative machinery has operated exceedingly slowly. One effect of the new rules is to hear the bills by bunches, taking up all the measures on one subject at one time, and frequently in joint session of the committees of the senate and of the assembly, obviating the necessity for repeated hearings on the same bills when the measures get to the other house.

Each afternoon the committee rooms are occupied and much progress was made although few bills were finally disposed of and placed in readiness for report.

## POOR ATTENDANCE AT FARMERS' MEETING

Only About a Dozen Braved the Elements to Hear About American Society of Equity.

Owing to the inclement weather, doubtless, the attendance at the meeting of farmers called by C. D. McCarthy, H. E. Holmes, and C. W. McCarthy, representing the American Society of Equity, at the courthouse this afternoon was not very well attended. About a dozen were on hand to listen to the unfolding of the plan for organizing the agriculturists to control the over-supply and establish a minimum selling price.

## GILDED YOUTH HAS TOLD HIS VERSION

Young Man, About Town Relates the Story of the Death of Old Man by an Automobile.

[SPECIAL TO THE GAZETTE.]  
Kenosha, Wis., March 1.—Shelly Montgomery, a wealthy youth, was on the stand this morning in the case against Ed Collier, for killing William Dryer of Wheaton, Ill., with an automobile last July. He said they struck the man while going at a rapid rate, but never stopped. Frank Jackson, a wealthy man who was in the party, insisted that they must not go back as his father was ill and the shock of anything serious would kill the old man.

## STEPHEN P. JOCELYN RETIRES FROM ARMY

Fought in Big Battles During Last Year of Civil War and Served in Philippines.

[SPECIAL TO THE GAZETTE.]  
Washington, D. C., March 1.—The United States army lost one of its veteran soldiers today by the retirement of Brig. Gen. Stephen P. Jocelyn on account of age. Gen. Jocelyn is a native of Vermont and entered the army in time to take part in some of the important engagements fought during the last year of the civil war. After the war he entered the regular service as a lieutenant of the Sixth Infantry. He was brevetted major for conspicuous gallantry in action against the Indians at Clearwater, Idaho, in July, 1877, and subsequently participated in numerous Indian campaigns, in the Spanish-American war, and in the Philippine campaign.

## SPORTSMAN'S SHOW IN MADISON SQUARE

The Hunting Grounds, the Lives of the Hunters and the Lives of the Hunted Portrayed.

[SPECIAL TO THE GAZETTE.]  
New York, March 1.—With more attractions for sportsmen than ever before, including lakes, forest scenes, guides, Indians and everything pertaining to life in the woods, the fourteenth annual Sportsman's Show opens in Madison Square Garden tonight, to continue for one week. The exhibition this year is strictly a show for sportsmen with the side attractions eliminated. The exhibition includes specimens of bird, beast and fish, and the weapons and appliances used by civilized and uncivilized hunters in the chase. Camps such as are used by hunting parties, trappers and the like, have been constructed in different parts of the big building. Canada, Wyoming, Nova Scotia, Texas, Maine, California, Kentucky, and Labrador are among the sections represented by white and red men. Guides from the Adirondacks and the Maine woods; hunters, trappers, cowboys and Indians from the western and northwestern states, where big game abounds, are in attendance, clad in regular hunting costume. The railroads that tap the hunting sections of America have sent interesting exhibits and the loan collections of trophies and firearms will be of particular interest to visitors.

## WELCH CELEBRATING ON ST. DAVID'S DAY

Patron Saint of Wales Not Mythical, and His Accomplishments Were Actual.

[SPECIAL TO THE GAZETTE.]  
Chicago, Ill., March 1.—Sturdy sons of Wales, of whom there are more than 100,000 scattered throughout the United States, largely in the west and northwest, will today make merry in celebration of St. David's Day. St. David is the patron saint of Wales, as St. George is of England, St. Patrick of Ireland, and St. Andrew of Scotland.

Unlike many patron saints, the Welsh character is not semi-mythical. "Dewi Sant" or Dafydd, was born about 402 A. D. He despised notoriety and shunned public functions. He was noted for his generosity and self-sacrifice. His great deed was the crumbling of Pelagianism. While he was doing good work in the Vale of Roses the heresies of Pelagius were gaining strength in Wales. Able men, full of virtue, were spreading the doctrine. Their teachings, the upliftings, were not orthodox. They believed in God and the holy spirit, but not in the son. The old church searched for a man competent to cope with the capable Pelagians. Finally they hit upon St. David.

Dewi reluctantly complied with the requests of the bishops. The fleet of a powerful sermon delivered in a trumpet-like voice, with well chosen arguments, was marvelous. It dealt Pelagianism a death blow. Tradition says that a white dove alighted upon his right shoulder and that the earth under him raised to a small hill, during the delivery of his wonderful sermon.

At the close of this Synod, Dubricius retired from the bishopric of Caerleon and at his request David succeeded him. David achieved great success. His visits to Ireland were especially encouraging. He was canonized by Gallitus II. in 1120. Some biographers assert that Dewi lived 33 years, but later authorities are agreed that he died when about eighty years of age.

## U. S. AND ECUADOR HAVE PARCELS POST

Agreement Similar to That With European Countries Became Effective Today.

[SPECIAL TO THE GAZETTE.]  
Washington, D. C., March 1.—A parcels post convention, similar to the agreements already in force between the United States and the chief countries of Europe, was put into force today between the United States and Ecuador. Under its provisions packages may hereafter be exchanged between the two countries at the following rates of postage, prepaid: in the United States on packages for Ecuador, 20 cents for each pound, or fraction of a pound; in Ecuador on parcels for the United States 50 milsimos of an Ecuadorian condor, gold, for each pound, or fraction. Parcels post for Ecuador will be made up at New York and San Francisco.

## JEROME WILL PROBABLY DEMAND EXAMINATION AS TO THAW'S SANITY

This Seems To Be The Trend He Is Working Towards In His Examination Of Evans.

[BY ASSOCIATED PRESS.]  
New York, March 1.—District Attorney Jerome's intention of applying for a commission in lunacy to examine Harry K. Thaw seemed to be definitely established today during the continuance of his cross-examination of Dr. Evans. Dr. Evans stated he believed Thaw to have been suffering from adolescent insanity in 1903 and and at the time of his marriage in 1905, and that when he killed White he was a victim of an acute recurrent attack of the same mental malady. Dr. Evans was more definite in his answers today and was induced to make these statements with positiveness. In his cross-examination today in the Thaw trial Dr. Evans definitely stated that at the time Thaw killed White he was insane, suffering an explosive outbreak of adolescent insanity.

Dr. Evans resumed the stand after the recess. Jerome continued to question him regarding the so-called "mental explosions" which he had testified he believed Thaw to have suffered from.

## ALL CANADA WILL HAVE LID ON EVERY SUNDAY

"Lord's Day Act," Prohibiting Everything But Necessary Work, Will Go Into Effect This Month.

[SPECIAL TO THE GAZETTE.]  
Toronto, Ont., March 1.—Canada's new Sunday observance law, known as the Lord's Day Act, comes into operation with this date and will be enforced for the first time next Sunday. While the law provides for a strict observance of the day it is not calculated to work any particular hardship on any class.

The act says "it shall not be lawful for any person on the Lord's Day, except as provided herein or in any provincial act or law now or hereafter in force, to sell or offer for sale or purchase any goods, chattels, or other personal property, or any real estate, or to carry on or transact any business of his ordinary calling, or in connection with such calling, or for gain to do, or employ any other person to do, on that day any work, business, or labor."

It is expressly stated, however, that works of necessity and mercy are not prohibited. This permits the sale of drugs and medicines, the conduct of the passenger business of the railroads, the transmission of telegrams and telephone messages, the care and handling of perishable products and live animals, any emergency work to save property from destruction or serious injury, the carrying of the mails, and the work of domestic servants and watchmen.

All games, performances and entertainments at which an admission fee is charged are prohibited. The sale of newspapers, both domestic and foreign, are prohibited. Street car traffic, except in the case of international or inter-provincial lines now in operation, will be unlawful.

## RAILWAY EMPLOYEES SCORED. State Commission Reports on Recent Wrecks in Indiana.

Indianapolis, Ind., March 1.—The state railroad commission in its official report to the legislature on the recent wrecks at Woodville and Fowler, and the explosion of a car of powder at Sandford, which destroyed a Big Four passenger train, filed late Thursday, scores railroad employees for disregarding the rules, asks that railroad companies require a more thorough knowledge of the rules on the part of their employees and recommends a law compelling railroads with an annual gross income of \$5,000 or more per mile to install an improved block system along their lines.

It is also recommended that no telegraph operators less than 21 years of age be employed and that railroads cease to accede to the reckless demand of the traveling public for greater speed.

The responsibility for the Baltimore & Ohio wreck at Woodville is made to rest on the shoulders of Engineer Frank Galtour, who confessed shortly after the disaster to having disregarded the rules in operating his train.

The responsibility for the Big Four wreck at Fowler is fixed upon Engineer Tripp of the passenger train, who, the commission contends, was running at a reckless rate of speed and who failed to see the signal at Fowler. The conductor and the engineer of the freight are held secondarily responsible.

The commission is unable to make a specific finding as to the cause of the disaster at Sandford in which a car of powder exploded, destroying a Big Four passenger train.

## GEN. U. B. PEARSON DIES. Distinguished Veteran of the Civil War Passes Away.

Leavenworth, Kan., March 1.—Brig. Gen. U. B. He had been mayor of Fort Scott, Kan., treasurer of Bourbon county, Kan., and a member of the first constitutional convention of Kansas.

## ..Forty Years Ago..

Janesville Daily Gazette, Friday, March 1, 1867.—Recruiting Office Closed.—The U. S. Recruiting Office in this city, which has recently been under the supervision of Maj. Randall, was closed yesterday by order of the government. The Major has proved himself an efficient and faithful officer; as well as an agreeable and genial gentleman. He has recruited during his short sojourn of nearly six months, about two hundred men.

**A New Peat Machine**—A company of enterprising gentlemen, residents of Madison and Janesville, are preparing to have manufactured at the Badger State Works, in this city, a machine for the preparation of peat, for the market, which bids fair to revolutionize, entirely, all previously conceived plans and ideas on this important subject, so far as the cheapness of manufacture is concerned. It is as successful as its projectors confidently anticipate it will be of immense benefit to the northwest in rendering available the vast peat deposits of that region, for fuel for dwellings, manufacturing establishments and railroads. The machine will be ready to operate in about four weeks.

**Theatre**—We confess to no little surprise at the truly excellent manner in which the Sea of Ice was presented at Lappin's Hall last evening. The scenery and tableaux were very

effective, and each person upon the stage seemed to do all in his power to make the piece what it proved to be a perfect success. Never have we seen Miss Dentin to greater advantage. The character of Ogarita is admirably adapted to the display of all those emotions which only a true artist like her can truthfully portray. The unselfish love of the mother, the fixedness of purpose with which the orphaned daughter pursues the murderer of her parents. Her triumph in finding him; the deliberate, yet sure revenge which she contemplates and metes out to him, were pictured with an intensity and faithfulness rarely, if ever equaled. Added to her wonderful versatility as an actress, she is personally an attractive woman, possessing a fine personal appearance, a face full of expression, with large, luminous eyes that talk even when her lips are closed, and a hand and arm fit for the admiration of a sculptor. There is charm in beauty of itself, but when it is blended with genius, there is a powerful charm. We trust it is unnecessary to remind our citizens that tonight has been set apart for the benefit of Miss Dentin. During her brief sojourn among us, we have been offered such a dramatic treat as is not often our lot to be favored with. Let it be proven to her in a most substantial manner, that her efforts to amuse and entertain, have been fully appreciated; so that should she again visit Janesville she may be certain that she comes among friends. ## A LAZY LIVER

May be only a tired liver, or a starved liver. It would be a stupid as well as savage thing to beat a weary or starved man because he lagged in his work. So in treating the lagging, torpid liver it is a great mistake to lash it with strong drastic drugs. A torpid liver is but an indication of an ill-nourished, enfeebled body whose organs are weary with over-work. Start with the stomach and allied organs of digestion and nutrition. Put them in working order and see how quickly your liver will become active. Dr. Pierce's Golden Medical Discovery has made many marvelous cures of "liver complaint," or torpid liver, by its wonderful control over the organs of digestion and nutrition. It restores the normal activity of the stomach, increases the secretions of the blood-making glands, cleanses the system of poisonous accumulations, and so relieves the liver of the burdens imposed upon it by the defection of other organs.

**Symptoms.** If you have bitter or bad taste in the morning, poor or variable appetite, coated tongue, foul breath, constipated or irregular bowels, frequent weak, easily tired, despondent, irritable, nervous, or depressed feeling, headache, pain or distress in the stomach, perhaps nausea, bitter or sour "risings" in the throat after eating, and kindred symptoms of weak stomach and torpid liver, or biliousness, no medicine will relieve you more promptly or cure you more permanently than Dr. Pierce's Golden Medical Discovery.

Perhaps only a part of the above symptoms will be present at one time and yet point to torpid liver, or biliousness and weak stomach. Avoid all hot breads and biscuits, griddle cakes and other indigestible food and take the "Golden Medical Discovery" regularly and stick to its use until you are vigorous and strong.

Of Golden Seal root, which is one of the prominent ingredients of "Golden Medical Discovery," Dr. Roberts Bartholow, of Jefferson Medical College, says: "Very useful as a stomachic (stomach) tonic and in atonic dyspepsia. Cures gastric (stomach) catarrh and headache accompanying same." Dr. Grover, of New York, says: "Hydrastis (Golden Seal root) exercises an especial influence over mucous surfaces. Upon the liver it acts with equal certainty and efficacy. As a cholagogue (liver-investigator) it has few equals." Dr. Coe also advises it for affections of the spleen and other abdominal viscera generally, and for scrofulous and glandular diseases, cutaneous eruptions, indigestion, debility, chronic diarrhea, constipation, also in several affections peculiar to women, and in all chronic derangements of the liver and gall bladder, for which Dr. Coe says "it is one of the most reliable agents of cure."

Prof. John King, M. D., late of Cincinnati, author of the AMERICAN DISPENSARY, gives it a prominent place among medicinal agents, reiterates all the foregoing writers have said about it, as does also Prof. John M. Scudder, M. D., late of Cincinnati. Dr. Scudder says: "It stimulates the digestive processes and increases the assimilation of food. By these means it is of great value in the glandular and nervous system, as natural results." Dr. Scudder further says, "in relation to its general effect upon the system, there is no medicine in use about which there is such a general unanimity of opinion. It is universally regarded as the tonic, useful in all debilitated states."

Prof. Finley Ellingwood, M. D., of Bennett Medical College, Chicago, says of Golden Seal root: "It is a most superior remedy in catarrhal gastritis (inflammation of the stomach), chronic constipation, general debility, in convalescence from protracted fevers, in prostrating night-sweats. It is an important remedy in disorders of the womb." (This agent, Golden Seal root, is an important ingredient of Dr. Pierce's Favorite Prescription for women's weaknesses, as well as of the "Golden Medical Discovery.") Dr. Ellingwood continues, "in all catarrhal conditions it is useful."

Much more, did space permit, could be quoted from prominent authorities as to the wonderful curative properties possessed by Golden Seal root. We want to assure the reader that "Golden Medical Discovery" can be relied upon to do all that is claimed for Golden Seal root in the cure of all the various diseases as set forth in the above brief extracts, for its most prominent and important ingredient is Golden Seal root. This agent is, however, strongly reinforced, and its curative action greatly enhanced by the addition, in just the right proportion of Queen's root, Stone root, Black Cherrybark, Bloodroot, Mandrake root and chemically pure glycerine. All of these are happily and harmoniously blended into a most perfect pharmaceutical compound, now favorably known throughout most of the civilized countries of the world. Bear in mind that each and every ingredient entering into the "Discovery" has received the endorsement of the leading medical men of our land, who extol each article named above in the highest terms.

What other medicine put up for sale through drug stores, show any such professional endorsement? For dyspepsia, liver troubles, all chronic catarrhal affections of whatever name or nature, lingering coughs, bronchitis, throat and lung affections, the "Discovery" can be relied upon as a sovereign remedy.

A little book of extracts treating of all the several ingredients entering into Dr. Pierce's medicines, being extracts from standard medical works, of the different schools of practice will be mailed free to any one asking (by postal card or letter), for the same, addressed to Dr. R. W. Pierce, Buffalo, N. Y., and giving the writer's full post-office address plainly written.

Don't accept a substitute of unknown composition for this non-secret MEDICINE OF KNOWN COMPOSITION.

### WISCONSIN WEATHER FORECAST

Rain turning to snow tonight, followed by fair Saturday; colder; cold wave in west portion.

### SPRING POLITICS

The Gazette has been repeatedly asked to take one side or the other in the present spring campaign. Thus far it sees no necessity to comply with the urgent requests. The city does not seem in any immediate danger of falling into the hands of the Philistines and the selection of city officers remains in the hands of the electors. The only warning or suggestion the Gazette cares to make at this time is to warn the voters to consider the qualifications necessary to make up good capable city officers and not be swept away by sentiment. The primary law is supposed to be one which will voice the direct opinion of the voters and if this be true then there is no fear that good honest capable men will not be selected as the standard-bearers of the two parties.

### THE SCHOOLS

There is no more than merely educating the minds of the pupils necessary in our public schools. There is the health of the students to consider. The Jefferson School in the third ward is in frightful condition. Its sanitary arrangements are practically nothing. Its rooms are crowded and poorly ventilated. Its conveniences are obsolete and the health of every pupil is endangered by attendance despite the care of the teachers. Something should be done immediately to ameliorate these shocking conditions. The school board should take immediate steps to have a new building constructed or the old one so remodeled and reconstructed that will be safe and sanitary for the students. This is something that the citizens can not hesitate over. It should be done, at once.

### CITY'S HEALTH

One of the essential items of every community is the health of the citizens. Prospective manufacturers, prospective citizens always look at the health record of a city they would establish themselves in. It is an important factor in a city's development. Today Janesville stands exceptionally well in this regard. Let us keep it so. The spring is coming and the spring cleaning will follow. Unsightly ash, and refuse piles are disclosed in back yards and alleys in dangerous proximity to residences and flats. These should all be cleared out by the property-owners and if not by them by the city. The city should have a cleaning-up of refuse that will leave us sweet and clean for the hot summer months that will follow. In the downtown districts are many alleys that should be carefully attended to. They should be kept clean and city officials should see that they are. Nothing breeds contagion so quickly as filth and refuse. Janesville has an efficient health officer, who if backed by proper authority will see this is done.

### THE THAW TRIAL

The Thaw trial and all its disgusting features continues to hold the stage center of public opinion. The horrid, nauseating disclosures that have been made on the witness stand have not tended to elevate anyone's opinion of the human vultures of White's type that prey upon young girls for the sake of their own carnal and bestial pleasures. Thaw's act in shooting the man he believed had grievously wronged his young wife is not excused by the testimony offered, but the trial has served the purpose of showing how low and depraved men and women can become.

### THE STATE CAPITOL

In thoroughly discussing the increased cost of material and labor in the erection of the proposed new statehouse, the Capitol Commission and the legislative committee are taking a wise step. It is better to erect a building that is fitting even at a greater cost than was first anticipated than to put a job-lot building with plaster and lath that would not last twenty years. The Capitol that is to be built now will last for fifty or a hundred years to come. It should be of good stable material, the best obtainable in the market, built like the one-horse shay; to last. Cheapness in construction should not be considered. Wisconsin can afford a good capitol and it should have it. The people want it when the matter is carefully brought to their consideration in the right way.

The necessity for good roads leading to Janesville was illustrated yesterday by the number who attended the horse sales in the city. With good roads leading towards Janesville many more would come each month than did yesterday and business would be much more prosperous in consequence.

The railroads appear to be willing to accept the opinion of the rate com-

mission as final in the matter of adjustment of rates for passenger travel, which is a very wise move as a legislature that believes it has undue power often exerts its authority in the wrong way.

The horse sale held yesterday is a step in the right direction. Perhaps every merchant did not receive a part of the money spent by the visitors, but it is safe to say that money was left here that will ultimately be used to pay the butcher, the baker and the candlestick maker. Such advertisements bringing the farmers and buyers together promise well for the city and is something that should be encouraged.

The Chicago school teacher who drove a poor little foreigner to suicide because he could not learn the English language should be sent down in some strange country and given a dose of her own medicine.

Governor Hughes of New York has developed a trait that is not pleasing to his republican friends. He insists upon officeholders doing their duty regardless of party affiliations.

The French peasant may use the old-fashioned sickle to mow his grain with, but in road building he can give the average American farmer cards and spades and beat him out for game.

Public-spirited citizens who ask for the support of citizens of undertaking which will benefit the city as a city should be encouraged, not discouraged.

The man who always seeks to see some ulterior motive in everything is to be pitied. His outlook for future happiness all depends upon his own selfish self and no one can help him.

This is the between-and-betwixt season and care should be taken to keep the feet dry and the head free from cold.

March came in like a lamb and if the old saying is true it will go out like a lion. That groundhog may have been right after all.

Remember that in voting on primary day there are no split tickets. You are a republican or democrat.

No matter how many times a good old-fashioned drama comes around the people always flock to witness it.

Voters should select the best man as their candidate for office and then vote for him.

One by one the patriots are appearing upon the horizon for political preference.

The state legislature still has much to accomplish before its time for adjournment comes.

### BUSSE SUFFERS SEVERELY.

Chicago Postmaster Goes Home But Is in Great Pain.

Pittsburg, Pa., March 1.—F. A. Busse, postmaster of Chicago, who was seriously injured in the wreck of the Chicago flyer near Johnstown last Saturday morning, passed through Pittsburg on his way to Chicago Thursday night. Mr. Busse, with his brother, mother and personal physician, Dr. L. Blake Baldwin, of Chicago, was traveling in the private car Atglen which was attached to the Chicago limited.

Mr. Busse received a representative of the press on the car and was propped up with pillows, apparently suffering much pain. He complained of severe pains in his back and chest, while his face was badly discolored and bruised. He said he feared he would be unable to attend the Republican convention on Saturday because of his condition. Throughout the entire interview Mr. Busse was racked with pain and continually tried to move about in his chair in an effort to get comfortable.

Augustus Busch is Indicted.  
Tulsa, I. T., March 1.—Augustus Busch, son of the millionaire brewer of St. Louis and president of the New State Brewing company of Oklahoma City, Okla., has been indicted by a federal grand jury here charged with introducing into the Indian Territory intoxicating liquors in the form of low grade beers.

## S.S.S. OUR RECORD 40 YEARS OF CURES

The value of S. S. S. as a blood purifier has been thoroughly proven by its forty years of successful service in the treatment of blood and skin diseases of every character. It is the best known and most generally used blood medicine on the market today, because in the forty years of its existence it has not disappointed those who have used it, and as a result of its universal success in curing disease it has made friends EVERYWHERE. It has been on the market for forty years, and its record in that time is one of which we are justly proud—it is a record of forty years of cures. As a remedy for Rheumatism, Catarrh, Scrofula, Sores and Ulcers, Skin Diseases, Contagious Blood Poison and all diseases arising from an impure or poisoned condition of the blood, S. S. S. has no equal. It goes into the circulation and thoroughly cleanses it of all impurities and makes a complete and lasting cure of these troubles and disorders. It furnishes to weak, polluted blood, rich, health-giving and health-sustaining qualities, and as this pure, fresh stream circulates through the system, all parts of the body are invigorated and made strong and healthy. S. S. S. is the only blood medicine on the market that can claim absolute freedom from minerals in any form. This great medicine is the product of nature's forests and fields, and is made from the healing, cleansing juices and extracts of roots, herbs and barks. It is, therefore, in addition to being a certain cure for blood troubles, an absolutely safe medicine for young or old. It is not an experiment to use S. S. S.; it is a remedy with a record and one that has proven its worth and ability by its forty years of cures. If you need a blood remedy begin the use of S. S. S., and write our physicians and they will send you a book concerning your trouble, and will give you, without charge, any medical advice.

**"ALWAYS BUSY."**

Recently one of Dr. Richards' patients caught sight of his daily appointment book which showed that almost every working hour of his time for weeks and weeks had been filled to the limit.

The office reception room outside was also full of waiting patients.

The party mentioned that things looked pretty busy around there.

"Yes," said Dr. Richards, "they do."

"But no more today than it always is with me nowadays."

"Well, you ought to be busy," replied the party. "Any man who makes the effort to do painless work deserves the support of the public."

And there's truth in that statement.

People appreciate the efforts of a man who endeavors to alleviate their sufferings.

They often enter his office as white as a sheet.

Rear deprives them of power to control their nerves and

Some actually scream before they get in his operating chair.

But under his considerate care they soon find their fears groundless, and depart with a different opinion of one dentist at least.

"Once a patient of Dr. Richards, always a patient," is the usual outcome when people put aside their prejudices and are fair minded.

Simply because

"He delivers the goods."

Findley P. Williams Recovering from Slight Injury Which Became Serious.

Findley P. Williams, who recently retired from the carrier service of the Janesville postoffice and became a railway mail clerk, is recovering from a slight injury which became serious and narrowly missed being fatal. While on run 512, between Elroy and Janesville on the North-Western road, a week ago yesterday morning, he accidentally struck the back of one hand against a steam radiator and suffered a flesh burn. Continuing at work until Sunday the injured muscles became inflamed and blood poisoning set in. Visiting a local physician he was informed that he had ceased using the member just in time to save his life and has since been off duty. **TWO CONTRACTS TO BE GIVEN FARMERS**

Rock County Sugar Company is Busy Securing Contracts For This Year's Crop.

The contracts for the growing of sugar beets for the local factory are now ready and in the hands of the company's agents.

The contracts are similar to those of last year, one a flat rate contract of \$5 per ton, regardless of test, and the other a test contract allowing \$4.50 per ton for 12 per cent beets, with an additional 25 cents per ton for each one per cent above 12.

Under the best contract the beets in an ordinary year will average, according to the tests made the past three years, about \$5.50 per ton, with many individual tests higher.

The grower has the choice of either contract. The company advises that in growing beets this season that the farmer be very careful in the selection of land and to contract only for the number of acres he is sure he can handle properly.

Contractors take possession of this old Lowell Store Monday. They must have room. It Means Big Dividends for You and less moving for us.

It will be a great economy event for every one, for there's something for every man, woman and child—for every personal and household need—for immediate or future use. Even this space is too small to include a full list of the various BARGAINS, but everything will go on sale and new items will replace the sold-out lots. So the only way to reap the full benefit of this great money-saving opportunity is to come to the store as early and often as you can during the next few days.

# THE GREAT ANNUAL MARCH CLEARING SALE OF FURNITURE

Began, As Usual, Today, March 1st, and Continues During the Entire Month

It is the one Furniture Sale of Southern Wisconsin each year, and includes all goods now in stock, together with all goods received during the month. It means the selling of a large quantity of furniture at very low prices, to make room for new goods arriving every day.

In our stock are three lines of goods of which we have exclusive sale, each being the best and from the largest factories in the world. They are the **Heywood Bros.' Go-Carts, Stearns & Foster Felt Mattresses, and the Royal Chair Co. Morris Chairs.**

## OUR 1907 LINE OF GO-CARTS

are mostly here and is complete—from the best English Coach to the cheapest folding cart.

## OUR FELT MATTRESS STOCK

is the largest and most complete ever shown in Janesville, and range in price from \$7.00 to \$20.00 each. This line of mattresses is without an equal in quality and price, and we can prove it to you if you will but investigate.

## The "Push Button" Morris Chairs

we sell are in a class by themselves, as there is nothing like them, nor quite as good, made. The workmanship and finish are perfect and we have them in velour, plush and leather.

During the holiday season, too late for our Christmas trade, we received a large number of KITCHEN CABINETS, which we offer during the first week in March AT COST. They are not the highest priced cabinets made, but are a moderate priced, well made and well finished cabinet. Each one is a big bargain.

## OUR DINING ROOM FURNITURE

including Chairs, Sideboards and Tables, is complete. We have the Hanson Furniture Co.'s Dining Tables exclusively, and their pillar table is without an equal. We have a "close out" Library Table, made by the Hanson Furniture Co. It is solid quarter sawed oak, full French legs, good sized drawer, well made and nicely finished golden oak, and offered at \$8.00 each.

Remember, we sell nothing we do not guarantee to give perfect satisfaction. Come and see the goods now and make selections while the stock is complete.

### COMING ATTRACTIONS

A ride over the most picturesque and remarkable railway in the world is one of the most notable features of Lyman H. Howe's new moving pictures to be shown in Myers theatre tonight. It was secured from the front of a locomotive on the Austrian State railway by courtesy of the Austrian minister, who granted special facilities for the purpose. It proceeds along the edge of a precipice at a dizzy height. Sublime mountain and valley scenery is constantly in view. Strong structures built to break the force of avalanches are shown. The road is a magnificent engineering feat. Two trains passing each other on it give the picture a fine effect. The sublime mountain scenery, precipices and ravines passing each other in rapid succession until the train plunges into the snow enveloped Arlberg tunnel—the third longest in Europe—make the whole trip one of absorbing interest.

The comedy part of the "Path of the Wicked" to be presented by the Hunt Stock Co. at the Myers theatre next Monday, March 4, is that of a young German medical student and in the hands of that clever comedian Mr. Cash Knight is an artistic piece of work. Mr. Knight is naturally funny and does not spoil his role by overdoing. The love scene between Tony, the young German, and Christie Medford is one of the funniest as well as proudest bits of stage play. Prices, 10-20-30 cents. One lady free on the opening night with each 30-cent ticket. Seats now on sale.

Amor Smith, Cincinnati Place. Washington, March 1.—The nomination Thursday by the president of Amor Smith to be surveyor of customs at Cincinnati removes from the list one of the places to which the president had in mind the possible appointment of a negro. The president still has under consideration the question of giving some well known Ohio negro an office in Ohio.

New York Life Election. New York, March 1.—The inspectors of election of the New York Life Insurance company sent a preliminary report to State Superintendent of Insurance Otto Kelsey Thursday. These figures, which are not final, however, indicate a victory for the administration ticket at the recent election.

Rich Farmer Commits Suicide. Litchfield, Ill., March 1.—Charles Simpson, a wealthy farmer residing near here, committed suicide Thursday by hanging himself to a rafter in his barn.

Water Always Calm. In the Gulf of Mexico, ten miles south of Sabine Pass, is a calm stretch of water two miles long and three-quarters of a mile wide. It is known as the Oil Spot, and is always placid.
